

# You can receive disaster prevention information on your cell phone or smartphone!

In order to ensure the reception of emergency and administrative information on disasters, Togane City broadcasts the content of its Disaster Prevention Administrative Radio to your cell phone or smartphone. Please make active use of this service to ensure the safety and security of both yourself and your family.

## It is very useful and very convenient!

### It reaches each one of us!

It will be sent to your cell phone or smartphone, so it will be received by all registered users.

### The information will be transmitted reliably.

Since it is delivered by text, the clear reception of the information is weather-proof, unlike when it is delivered by voice.

### You can check it as many times as you want!

If you want to see the information once again, just re-check your phone.

### You can use it right away.

No special preparation is required. You can easily register from your cell phone or smartphone.

**Please register using the QR code below.**
